

In the main screen (Home page), the feeds of the checked sites will be displayed, as shown in figure 1.

Figure 1: Main screen (without feeds)

On the bottom menu bars, there is a function for returning to Home screen, searched by keyword, and go to “add site” page, “favourites” page, and “sort”.

In the add site page shown as figure 2 and 3, the above add site and delete sites can be used to add sites manually. The app has saved 10 sites in advance. If you try to add an invalid URL, the app will inform you (shown in Figure 4).

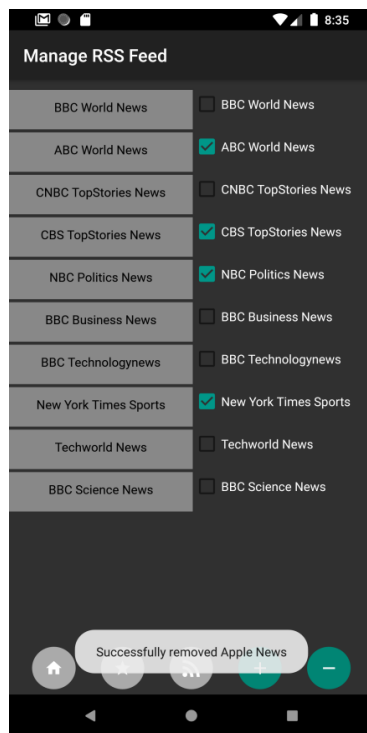

Figure 3: Remove a site

Figure 4: Add an invalid site

The checkboxes in the add screen, can be ticked to add a site to the main screen also unticked to remove a site from main screen.

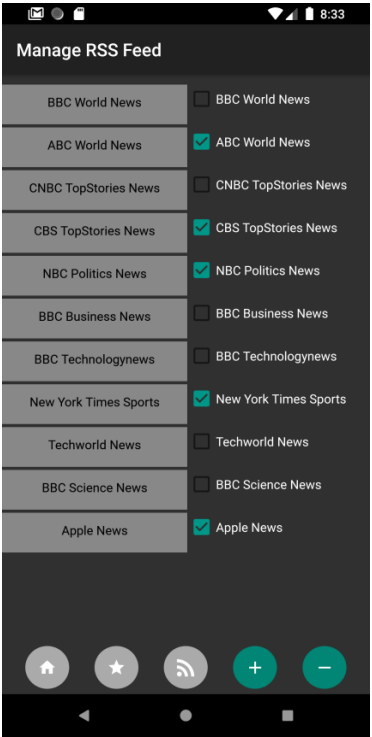

Figure 5: Tick boxes

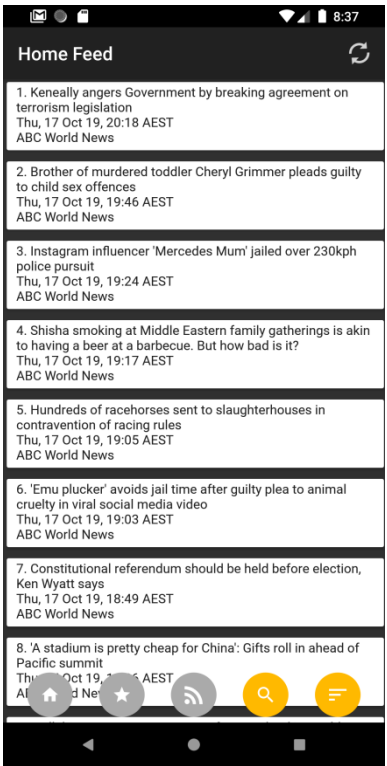

Figure 6: Main screen (with feeds)

When clicked at any feed in the main screen or in the individual site screen, we can add any feeds

to the favourites list by clicking the heart icon on the far right.

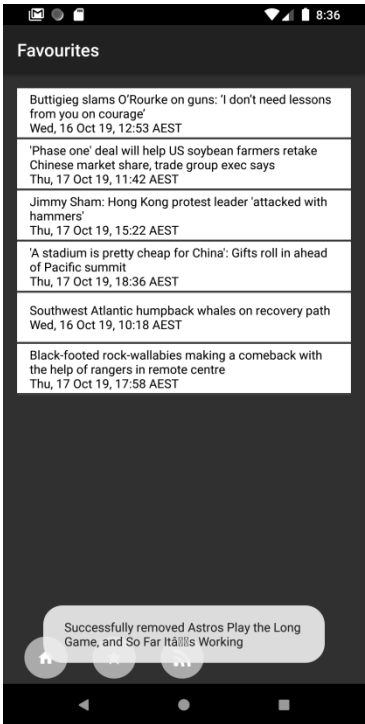

Figure 12: Prompt deleted successfully

The feeds can also be shared through Facebook and Twitter by clicking the share button shown in

figure 13.

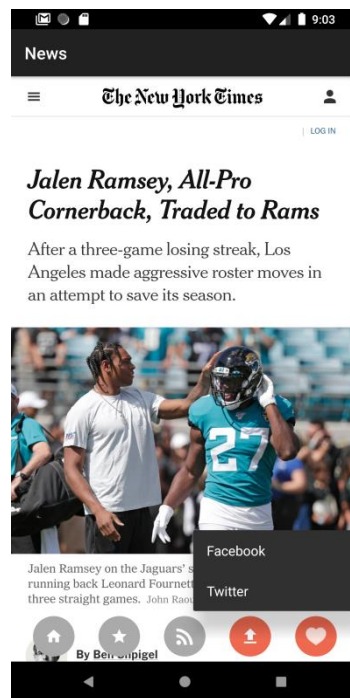

Figure 13: Share

If we choose to share through Facebook, the app will load and automatically jump to this page, shown as figure 14 and figure 15.

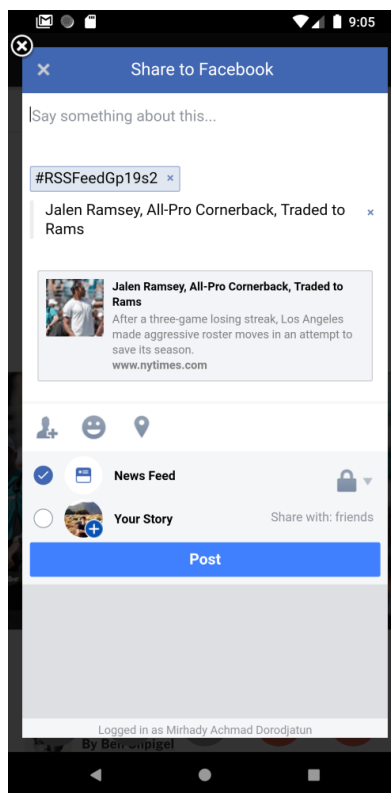

Figure 14: Share through Facebook

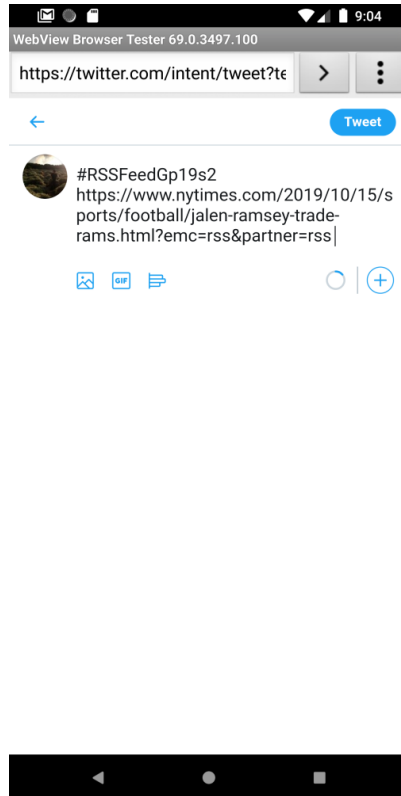

Figure 15: share through Twitter

The feeds can be searched by a keyword shown as figures 16.
